

**Family Health Organization – Barry’s Bay, ON
Locum Opportunity**

**Trying to decide where you would like to practice? Locums are a perfect way to
“test-drive” a Family Practice without making a long-term commitment.**

Our hope is that after visiting you will want to return!

We are currently looking for a Family Physician interested in **covering a family practice plus some in-patient coverage from November 25 - December 4, 2012.**

Your Office Location: The St. Francis Health Centre is connected to the St. Francis Memorial Hospital and is home to physician offices, a private lab, an optometrist, an ophthalmologist, CCAC and a Haemodialysis Unit.

St. Francis Memorial Hospital is located on the outskirts of Barry’s Bay with spectacular views overlooking Kamanisseg Leg. Some of the highlights of this 20-bed facility include: 24/7 Emergency Department; Diagnostic services such as PACs, ultrasound, X-ray, bone densitometry and laboratory, and bedside ultrasound etc.; visiting specialists that provide on-site surgical, internal and ENT expertise; and access to a wide range of specialists via the telehealth network.

Barry’s Bay: The approximate population of Barry’s Bay and the immediate surrounding area is 4400. The area boasts a variety of activities and facilities for you and your family’s enjoyment including:

Golf courses, indoor/outdoor rinks, community centers, hundreds of km of recreational trails, curling rinks, down hill and cross-country skiing, a network of museums, musical and art venues, beached, parks, swimming and fishing areas...

Barry’s Bay is recognized as a world-class white-water paddling destination and is located on the outskirts of Algonquin Park and is a 2-hour drive west of Ottawa.
